EXECUTIVE SUMMARY

Full-stack software engineer specializing in JavaScript and Python, with a track record of architecting high-performance enterprise platforms from scratch. Experienced in building scalable systems using Next.js, React, FastAPI, and PostgreSQL. Strong in end-to-end system architecture, third-party API integrations, and robust automated testing workflows that align with business requirements.

WORK EXPERIENCE

Solidhouse Builders and Construction Inc. — BGC, Philippines

Software Engineer Intern (Full-Stack), Sep 2025 – Dec 2025

- Built and maintained a **full-stack digital ecosystem (Next.js/React + FastAPI)** with a **60+ table database architecture** from scratch.
- Developed a **D2C e-commerce platform** with authentication, inventory, logistics automation, billing, and admin dashboards.
- **Integrated third-party APIs and performance systems (Lalamove, Xendit, CDN/caching, Three.js)** with automated testing achieving **p95 < 450ms** and **zero critical vulnerabilities**.

Pilmico Foods Corp. (Aboitiz Foods) — Makati, Philippines

Software Engineer Intern (Full-Stack), Sep 2025 – Dec 2025

- Built **3 full-stack web applications** and led development of **11 React production modules**.
- **Collaborated on system architecture** and worked directly with **clients and stakeholders**.
